12. NEXT MEETING

- I. May 13th, 2020 via Zoom

13. ADJOURNMENT

- I. Meeting adjourned at 1:30 PM.

ATTACHMENT 1

Resolution on Emergency Teaching Certificates

Draft presented by the ASCWU VP for Student Life & Facilities

4/24/2020

WHEREAS students in the education program at CWU are required to fulfill 480 hours of student teaching hours in order to take their EdTPA to become state certified teachers;

WHEREAS all K-12 public institutions in the state of Washington have moved their mode of education to be online or some other form due to the COVID-19 pandemic;

WHEREAS CWU teacher candidates are now unable to accumulate the required number of student teaching hours in order to complete the EdTPA and earn the state certification;

WHEREAS CWU has encouraged their teacher candidates to delay signing teaching contracts in exchange for resuming their student teaching in the Fall of 2020.

BE IT THEREFORE RESOLVED that we, the Associated Students of Central Washington University, request that Central Washington University department of Education recommend all students who would otherwise qualify for a teaching certificate for an emergency certificate to the Washington Professional Educator Standards Board;

BE IT ALSO RESOLVED that Teacher candidates will also be provided a grace period to submit their EdTPA, as opposed to the current requirement to submit the EdTPA before certification is awarded;

BE IT ALSO RESOLVED that If teacher candidates have already secured teaching jobs for Fall 2020, CWU must accommodate teacher candidates by waiving requirements for student teaching rather than continue implementing its current policy of forcing them to delay teacher candidates an entire quarter (assuming K-12 schools remain closed this school year);

BE IT FINALLY RESOLVED that Teacher candidates will be allowed to retain any teaching contracts already signed with a school district for Fall 2020 in exchange for completing their student teaching hours and EdTPA.

Jasmin Washington	Alejandro Alcantar	Ashley Klippert	Nicholas Mejia
President	Executive VP	VP for Clubs	VP for Academic Affairs
Jessica Hernandez		Mickael Candelaria	Zackary Turner
VP for Equity & Community Affairs		VP for Student Life & Facilities	VP for Legislative Affairs

**CWU ELECTRIC VEHICLE CLUB****TO THE ASCWU BOARD:**

We desperately need electric vehicle chargers (EVSE = Electric Vehicle Supply Equipment) on this campus. The Electric Vehicle Club has access to many knowledgeable people who have already successfully installed EVSEs at other campuses.

We humbly request with extreme urgency of the ASCWU to:

- A) Request of Parking Enforcement that a temporary 1 – 2 dollar fee be applied to the PARKING PERMIT for the specific purposes of installing EVSEs.
- B) Understand that these EVSEs shall be prioritized for residential parking lots – EV drivers and owners do between 70 – 90 percent of their charging at home. This shall include the six charging stalls that have not been purchased but are currently ready to be installed in the Dugmore Hall parking lot.
- C) Push for the installation before the end of the next academic year of at least one more EVSE in every parking lot on this campus, but preferably at least six in each parking lot. There are MANY solutions to physical space limitations; street lamp posts can be remanufactured as EVSEs, EVSEs can be recessed into the ground and lift up on hydraulics only when needed to reduce clutter – many more solutions already exist.
- D) Understand and act on the fact that planning for these EVSEs should take no longer than one month. The installations should take no longer than 72 hours per parking lot, or a week for the more complicated installations. Most installations take no more than several hours, as they are plug-and-play – however, we have quoted 72 hours here because it will take time to dig up the concrete and asphalt. The Dugmore Hall installations should not take any longer than a few hours because there are already conduits in the ground.
