Alternative Loans

Alternative loans should be considered the “aid of last resort” for most students. We recommend that you file the FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA) on-line at www.fafsa.ed.gov to be considered for federal, state, and institutional student financial aid.

General information about Alternative Loans: The interest rates are higher than federal student loans and they cannot be included in a Federal Consolidation Loan. They are not discharged for death or disability. Like unsubsidized federal loans, alternative loans accrue interest while you are in school and will enter repayment six months after you graduate, or if your enrollment drops below half time.

We work with a limited number of respectable lenders. Please research your options among these lenders. We suggest you compare: **interest rate, loan fees, eligibility requirements, aggregate and yearly limits, re-payment terms, and special features.**

Steps needed to apply for an Alternative Loan.

1. Research your options using the list of lenders that CWU works with. A comparison chart of their loans with web-based applications is provided at: <http://www.simpletuition.com/cwu/home>
2. Click on the lender’s name on the comparison chart to file the application on-line.
3. Promptly send any required paperwork such as the promissory note to the lender.
4. Complete the form on the back of this page and submit it to the Financial Aid Office.

The lender will contact the financial aid office for certification of your enrollment, costs, and disbursement dates after you complete steps 1 - 4.

Alternative loans will not be revised once processed.

Please note: We will process this loan as rapidly as possible, however there may be delays. The funds will disburse to your account as soon as the university gets the electronic deposit from the lender. Please check safari to determine the status of your loan.
