Cabinets and Enclosures

DESIGN GUIDE

1 General

1.1 Introduction

- A. This section applies to the following:
 - 1. Cabinets and Enclosures

2 Materials

2.1 Cabinets and Enclosures

- A. Construction: NEMA 250, Type 1 steel enclosure, unless otherwise indicated.
- B. Covers: Continuous hinge, and flush lock keyed to match branch circuit panelboard.
- C. Knockouts: Manufacturer's standard knockouts.
- D. Enclosure Finish: Manufacturer's standard gray baked enamel.

3 Execution

3.1 Installation

- A. Install enclosures and boxes plumb. Anchor securely to wall and structural supports at each corner.
- B. Provide labeling for cabinets as required under the electrical identification section.

4 Appendix

4.1 Reserved for future.
