Chair report – Maura indicated that the meeting regarding assessment is scheduled for Thursday, November 10.

GE Program Rules – The committee reviewed the current rules. High school pre-calculus and calculus appropriate grades being used for the qualifications for a Quantitative Reasoning (QR) course was started this year. The committee finished the First Year Experience sections on the rules. The committee would like to see DFW rates for QR courses and potentially correlate this with course enrollment numbers. Maura will request this data from Dean Takahashi.

COM 250 – Committee reviewed the updated outcomes, activities, and assessments for this course. Outcome 1 meets K1. Alignment is off in some places but seems like it overall meets the GE outcomes. However, they only aligned the pathways with one criterion. Maura will contact Francesco about the alignment with pathways criteria.

Need to review GEOL 101/LAB and GEOL 103 at the next meeting.

Meeting adjourned at 5:01 p.m.
