Chair report – Maura created a draft for the Qualtrics survey.

Culminating Experience Assessment Report. Maura briefly went over the report. Yoshiko indicated this was a trial for GE assessment. Scores are lower than was expected, but possibly not having the appropriate artifact could have been a factor. This was a lesson learned as they move forward with GE assessment next year.

UNIV 400 offerings – Amber indicated they are looking to take a different approach to this. Working with colleges that do not have a CE course for their program. Asking if they are planning to put one forward, eliminating students who have a program with a CE or those that are double majoring that has a CE course. Adrian will go from there to put together a forecast of the need for this course.

GE program learner outcomes – Maura went over the draft of the survey. The committee discussed potential changes.

No student petitions.

GE forms – Michael G suggested setting the form up for faculty to tell the committee where to find the information, rather than the committee having to find it.

Add column “Please describe how your outcomes meet these GE outcomes.” Incorporate everything into the spreadsheet.

Eliminate whole pathway section.

Mike G indicated there is a new electronic version of the student petition. He will bring it to the committee for review soon.

Common Core course review – Janet will send out the review groups.

PADstone is misnamed in the catalog.

Next week the meeting is in-person in the Grupe Center.

Meeting was adjourned at 5:04 p.m.
