CHANGES TO AND APPROVAL OF AGENDA - Approved

MOTION NO. 18-19(Approved): APPROVAL OF MINUTES of November 14, 2018

Disability Support Services – Wendy Holden – Wendy gave an overview of what Disability Support Services (DSS) does. They provide accessibility services and ensure compliance. DSS ensure we are not discriminating against students with disabilities and compliance with ADA. DSS looks at the Civil Rights office for rulings and guidance on how to accommodate students. Wendy explained they are working to provide faculty with more concrete guidance on students who have modified attendance needs. They would like to give faculty information when accommodation is appropriate and not appropriate so faculty will be able to make an informed decision and discuss with students. It is the student's responsibility to get the notes for missed classes. Wendy indicated she is interested in faculty thoughts, a better way to phrase things or what would be most useful?

COMMUNICATIONS- Don't Cancel that Class communication from Student Success. The information may be viewed in the Faculty Senate office.

SENATE CHAIR REPORT – Chair Claridge thanked Senators for attending the special meeting on November 14 about General Education. Senate is quickly organizing to continue the implementation for Fall 19. Today we are voting on the final piece with changes to the Faculty Code. There will be regular updates from General Education throughout the year. The program change will be coming before Senate in winter quarter. Look out during winter quarter for a call for Pathway coordinators. There are two ongoing conversations on campus this year. First is Strategic Enrollment plan 2018-2024. There was an open forum on November 15th. Individuals can still go on website and review the plan and provide feedback. Second conversation is around advising. This is a top priority to improve retention. Academic advising is directly tied to this. The Baccalaureate task force discussions included academic advising. This group has put forward two reports on recommendations for academic advising. There will be town halls the beginning of winter quarter. The dates are to be determined yet. They will be using the workgroup reports and will be presenting a few advising models for discussion. They will be using a similar strategy as was used for the General Education redesign. This is an important conversation for faculty to be involved in.

FACULTY ISSUES – Chair Claridge reported on the final exam schedule that a Sense of the Senate vote conducted. It was felt it was best not to implement the change for winter quarter. The Executive Committee will bring the issue to Senate with a motion and a policy change winter quarter. We need to make sure there is flexibility in the policy for those who cannot work with the 10 minute passing schedule.

Amy reported that to ensure Senators have enough time to consult with their departments, the Executive Committee will be doing a pilot test to send out the agenda 7 business days prior to the Senate meeting for the rest of the year. It is anticipated there may be some unintended consequences to curriculum and committees.

At the last Senate meeting an issue in L&L was brought forward. Cody toured the building and has a meeting with facilities this week about some of these issues.

Bernadette Jungblut reported that there was a bug in the computer code that was developed for SEOIs and did not correctly match all of the courses to the correct SEOI form. In order to correct this the SEOIs were

closed and reopened with the correct forms. Unfortunately, some diligent students had already filled out their SEOI forms and will need to redo them.

Senator Sorey asked if testing services could administer exams at the same time as students who are taking them in the classroom or at least start at the same time even if the student needs additional time. The Chemistry department would like to protect the integrity of their exams and often need to create different exams if a student is taking them through testing services if it is scheduled for a different time than the class.

Wendy Holden indicated that this is hard to do an absolute rule, so would have to work on a case-by-case basis. They are currently looking at policy and trying to devise rules that are clearer.

PRESIDENT - At ROTC memorial service. E-mail from President Gaudino. Your work to re-conceptualize the General Education program was thoughtful and creative. I believe that it will soon be seen as a significant and distinctive element of the learning experience we offer at Central. All involved should feel proud of the accomplishment.

Your work also shows the maturation of the academic leadership by the Senate. In previous attempts, I have felt that obstacles were allowed to block progress. While many have had a hand in this accomplish, the work of the Senate chairs over the past three years has been outstanding. The breadth of the changes and the details of implementation could have overcome the forward momentum on a number of occasions. That did not happen, in part because of the outstanding leadership of Sathyanarayanan, Cody, and Amy.

The Gen Ed working team also did an exceptional job of honoring the conceptual design while attending to the needs and concerns of stakeholders. Again, while there are many who made significant gains and contributions, the leadership of Eric Cheney, Mike Harrod and Becky Pearson should receive our applause.

PROVOST - At ROTC memorial service.

CWUP 5-90-030 Acceptance of Transfer Credit

(1) Transfer Credit

(A) In general, it is the university's policy to accept credits earned through college and university-level courses at institutions fully accredited by their respective regional accrediting association.

(B) A student may transfer no more than 135 credits, including a maximum of 105 lower division credits to be applied to the 180 credit minimum toward graduation. Test credits (Advanced Placement, Cambridge, International Baccalaureate, College Level Examination Program), military credits, and non-traditional credit contributes to the 105 lower division credit limitation.

(C) Only official transcripts and official test score results will be used to evaluate credits for degree requirements.

(D) No more than 45 total quarter credits through Advanced Placement (AP), College Level Examination Program (CLEP), International Baccalaureate (IB), Cambridge, Military or other sources of non-traditional credit may apply toward graduation requirements.

(E) Students who would like to petition their transfer equivalency may request a substitution through their academic department for major/minor requirements or file a general education petition through registrar services.

(2) Transfer Credit from Four-Year Institutions

(A) A student may transfer no more than 135 credits, including a maximum of 105 lower division credits to be applied to the 180 credit minimum toward graduation.

(B) Students who transfer from a regionally-accredited four-year institution after completing the general education at their prior four-year institution, will not be required to complete the CWU general education or foreign language requirements. Students must submit evidence of prior general education completion to registrar services upon admission.

(3) Transfer Credit from Community Colleges

(A) The university will accept a maximum of 105 community college credits. Course work exceeding that amount may be used to satisfy specific requirements but no additional credits will be accepted.

(C) Associate of arts degrees from a college accredited by the Northwest Commission on Colleges and Universities in the state of Washington approved by the Intercollege Relations Commission (ICRC) as a direct transfer agreement (DTA) associate degree will have satisfied the general education and the foreign language requirements of a bachelor's degree.

(E) Associate degrees that are not part of the direct transfer agreement, such as applied career and

technical degrees, will not automatically satisfy the general education requirements at CWU.

Title: Placement Policy and Procedure

Summary:

Policy and Procedure are being updated to require that students complete placement testing at or before orientation and that they complete developmental coursework early on in their time at CWU. Completing placement testing during orientation may improve enrollment in developmental courses during a student's first quarter. Data from CWU advising shows substantially better student outcomes when developmental courses are completed as soon as possible. Better student outcomes should lead to improvements in retention.

Policy is also being updated to reflect the new General Education Program language ("Academic Writing I" and "Quantitative Reasoning").

*[xx/xx/2018: Responsibility: **Faculty Senate**; Authority: Katherine Frank, Provost/VP for Academic & Student Life; Reviewed/Endorsed by: Cabinet/UPAC; Review/Effective Date: xx/xx/2018; Approved by: James L. Gaudino, President]*

New **Revision**

Title: Curriculum Rules for Implementation

Summary: Workshops, Seminars and Special topics by current policy are considered to be temporary courses and must be converted to a regular course number after three years. However, current practice has been that Special topics have been the only courses that have been enforced as temporary courses. Policy and procedure are being changed to reflect current practice and to honor the programs that are currently using workshop (X91) and seminar (X99) courses are part of their continuing curriculum.

(3) Course numbering system:

- a. Course numbers are usually 3 digits. However, when necessary for logical ordering, a fourth digit may be added.
- b. Courses should be numbered according to common fields of interest -- (e.g., literature, evolution, tests and measurements, etc.). Advanced courses should have the same last two numbers as beginning courses. Sequence courses covering allied subject matter should be numbered sequentially.
- c. The initial digit should reflect the appropriate level of study.

<u>Year</u>	<u>Initial Digit</u>
First Year	1
Sophomore	2
Junior	3
Senior	4
Graduate	5, 6, 7

- d. The basic numbering system, both as it applies to the institution as a whole and to the grouping within subject fields, should be as follows:

Second and Third Digit Description

01 to 09	Introduction to Broad Areas
10 to 89	Regular Department Courses
90	Cooperative Education
91	Workshops. 1-6 credits. May be repeated if subject is different
92 to 95	Professional Laboratory Experiences, Practica, and Field Experience
96	Individual Study. 1-6 credits. May be repeated if subject is different.
97	Honors. 1-12 credits. Prerequisite, admission to department honors program.
98	Special Topics. 1-6 credits. May be repeated if subject is different

500	Professional Development. 1-5 credits (or continuing education units), which will not be counted toward degree or certificate requirements.
689	Master's Capstone. 1-6 credits.
700	Thesis, Project, and/or Examination. 1-6 credits.

e. Hold on Course Numbers. An eight-year moratorium exists on course numbers. The moratorium will last:

1. Eight years at the time a course is deleted, or
2. Eight years at the time it is put on reserve by a department, or
3. Five years after placed on reserve by the Registrar's office designee. (Ref CWUR 2-50-060(10).

(4) Graduate Courses (initial digits 5XX, 6XX, 7XX)

(A) Graduate Enrollment - Students may be required to complete specific preparatory course work before acceptance into a graduate program, especially when the student's undergraduate degree was in a different field of study.

(5) Individual Study Courses

(A) Individual study courses are given only with the permission of the department chair. Students must secure a faculty member willing to supervise an individual study course. Faculty may agree to supervise individual study courses only in the subject area of their specialties. Faculty willing to supervise an individual study course and the student wishing to register for it should confer to determine the specific topic(s) to be studied, outline the study area, and develop specific student learning outcomes and an assessment plan. The student should complete the "Individual Study Permit" form and obtain the approval signatures of the faculty member supervising the study and the department chair. Faculty may either use letter grades or S/U depending on the nature of the study.

(B) Faculty should approve individual study courses only if the student has demonstrated adequate background in the subject to be explored, sufficient scholastic ability to succeed in the task, and independent study skills sufficient to conduct the study.

(C) The individual study course is intended for individual students, not for groups of students. If the learning experience is intended for a group of students, it must be offered as a special topic course (-98) or a regular course. Examples of inappropriate use of individual study include: internships, seminars, instructional or laboratory assistance, administrative assistance, tutoring, duplicating an existing course and groups of students doing identical individual studies.

(6) International Study Courses and Programs

The provost and the academic deans, is charged with coordinating and/or implementing all programs which involve either CWU students or CWU faculty. Cooperative, consortia or federated arrangements are encouraged among educational institutions with similar aims and goals.

(A) Recognizing the unique and diverse nature of international study, university-sponsored programs abroad will meet the same academic criteria as would be required of similar programs on the home campus.

1. When credit is granted, the student's admission status will conform to the specific requirements of the registrar's office.
2. The teaching staff will consist of academic professionals who meet the standards for similar programs on the campus.
3. The course offerings will meet equivalent standards and conditions as those offered on the campus.
4. Courses with INTL, FNST or MFST prefixes are not offered on campus and are available only in conjunction with international programs, foreign languages or music departments. Credit to be given depends upon the evaluation made by the office of international studies and programs.
5. Travel programs per se or commercially sponsored "Travel Study" programs will not be granted credit.

(B) Process - Approval of international studies courses.

1. A new course form will be submitted to the FSCC as a variable topic course with a specific subject title. The new course form is approved by the office of international studies and the registrar's office before submission to the FSCC.

2. Each sub-title falling into that specific subject may change quarterly and the office of international studies notifies the registrar's office of the course name.

3. The INTL courses will transfer into CWU as a general elective with the INTL prefix. To receive equivalency credit for an existing course, a student must petition a department for a substitution in their major.

4. International studies and programs courses that are approved CWU faculty-led courses may offer credit through individual academic departments and follow the same approval process as a special topic, seminar, or workshop. These courses are pre-approved by the specific department. (See CWUP 5-50-020)

(7) Office of Continuing Education - Credit Offerings

Each request for a new degree program must be submitted on a new degree program form and includes all information on the new degree program instructions form. The new degree program proposal must be approved through the CWU curriculum approval process. All new programs or existing programs to be offered in new locations must be approved by NWCCU. Proposals for such programs must be submitted through the provost's office.

(A) Certificate Program (Type B). Each request for a new certificate program (Type B) must be submitted on a new minor/specialization/certificate form and must be approved through the CWU curriculum approval process.

(B) New Course. Each request for a new course must be submitted on a new course form. Express approval of all such requests by the appropriate department chair and college dean is required.

(C) Existing Course. Each request for an existing catalog course or previously approved special topics course, seminar, workshop or professional development course must be submitted using the existing course addition form.

(8) Office of Continuing Education - Noncredit Offerings No procedures

(9) Professional Development Courses

Departmental addition of a 500 catalog entry will follow the normal curriculum process for course additions. Specific 500 courses will be approved through the graduate office and at the individual college level.

(10) Reserve Courses and Programs

(A) Courses can remain on reserve for three years. After three years, they will become inactive automatically by Registrar Services or designee.

Courses that have not been taught for three years will automatically be placed on reserve by the Registrar Services.

(B) Courses or programs to be placed on or taken off reserve should be submitted using the course or program reserve form for approval by the appropriate individuals as identified on the form and are sent to the FSCC for review.

(11) Course Accessibility No procedures

(12) ~~Workshops, Special Topics, Seminars,~~ ~~(A) Process~~

(A) ~~Special Topics, Seminars and Workshops~~ should be submitted using the New Course form for approval by the appropriate individuals as identified on the form and will follow the normal curriculum process for course additions.

(B) Time Restriction - Courses offered as ~~(X91), (X98) and (X99)~~ are temporary offerings. These numbers are used to describe courses offered on an experimental basis, for topical issues, and for niche markets. Upon approval, the course may be offered for a period of three years. ~~After three years courses will be deleted or must be converted to Any subsequent offering must be as~~ a regular course (numbered X10 to X89), submitted and approved through the established curriculum process. The provost's office or designee will notify all departments annually of expiring special topics, ~~seminars, or workshops.~~

CWUP 5-50-060 Curriculum Rules for Implementation

(1) Cooperative Education

Cooperative education (X90) is an individualized contracted field experience where the student is actively engaged in hands-on learning with business, industry, government, or social service agencies. This contractual arrangement involves a student learning plan, cooperating employer supervision, and faculty coordination.

(2) Credit Hour Allocation to Courses

Credit Hour Allocation to Courses - Academic credit provides the basis for measuring the amount of engaged learning time expected of a typical student enrolled not only in traditional classroom settings but also laboratories, studios, internships and other experiential learning, distance, correspondence, and competency-based education.

(A) Traditional, Seat-Time-Based Courses - A minimum of one class work hour (approximately 50-60 minutes of instruction) and an additional two hours of out-of-class student work each week for one credit hour during a 10-week quarter. If the learning experience is offered in a different time frame (e.g., six-week summer session), the student time required to complete the course should reasonably approximate 30 hours of combined direct instruction and student work per credit. If direct instruction is not the principal mode of learning for an academic experience (e.g., laboratory courses, studio work, some on-line courses), the student time required to complete the course should reasonably approximate 30 hours of student work per credit.

(B) Hybrid or Online Courses - The credit hours awarded for a given course or academic experience must be reasonably equivalent to the standard of 3 hours of combined classroom instruction and student work per credit hour for a 10 week quarter. These hours may consist of course activities including, but not limited to:

1. Face-to-face course meetings
2. Virtual course meetings or student-instructor and student-student interactions
3. Time to read/view assigned texts or other assigned materials
4. Experiential learning activities consistent with the learning objectives of the course
5. Synthesis/processing/reflection time and activities (may be used for writing or production of creative work which may take many forms including but not limited to journals, formal papers, projects, blogs, art, music, etc.)

(C) Alternative Outcome-Based Courses - Credit may be awarded for an amount of learning equivalent to learning in a seat-time-based course as documented by student attainment of learning outcomes as verified by assessment of student achievement by the appropriate academic department. Students completing competency-based courses would be awarded the same credit equivalent to learning in the same seat-time-based course.

(3) Graduate Courses (initial digits 5XX, 6XX, 7XX)

(A) Graduate Enrollment - Graduate courses numbered 501 and above are generally restricted to students who have a bachelor's degree and who have formally been admitted to a graduate program of the university. Competitive admission may be required for some programs.

(B) Undergraduate Enrollment - Seniors may enroll in graduate courses with the permission of the instructor and the department chair. Credit earned by seniors may meet either undergraduate or graduate program requirements, but not both. If the credit earned by a senior is to be applied to a graduate program, approval must be obtained from the dean of graduate studies and research.

(C) Curricular Criteria - Graduate curricula are usually more specialized than undergraduate curricula, focusing on a few academic or applied areas. Introductory courses and courses that can be approached by a student without extensive preparation are not appropriate to the graduate level.

(4) Individual Study Courses

Individual study courses (X96) are those that include study of specific topics that are not offered as existing courses. The individual study course may be repeated for credit.

(5) International Study Courses

University-sponsored international courses and programs must meet the same academic criteria as would be required of similar programs on the home campus.

(6) Lower and Upper-Division Courses (initial digit 1XX, 2XX, 3XX, 4XX)

(A) Lower-division courses (1XX and 2XX) are general introductions to a field of study. They are normally open to all students, not just those majoring in the field.

(B) Upper-division courses (3XX and 4XX) are more specific than lower-division courses and may require prerequisites.

(7) Final Culminating Experience

Final culminating experience credits (6XX or 7XX) will have the following catalog description:

DEPT 6XX or 7XX: Final culminating experience title has to be specified as one or more of the following: Master's Thesis, Project Study, Portfolio Review, Examination, Creative or Studio Project, or Internship.

Prerequisite: permission of chair of student's graduate faculty supervisory committee. Designed to credit and record supervised study for the master's thesis, non-thesis project, studio project, public recital, portfolio review, internship, and/or examination. Grade will be S/U. May be repeated for up to six credits for all Master's degrees and may be repeated for up to 12 credits for terminal Master's degrees.

(8) Office of Continuing Education - Credit Offerings

(A) At least one of the following conditions must be met in order for a credit course or program to be offered through the office of continuing education:

1. The course/program must be a test of new and emerging markets which may involve any or all of the following: A new academic course or program; A new location; A new audience of students; A new technology for delivery.

2. An offering which increases access and falls outside the limits of state supported university offerings for the main campus and university centers as determined each year by the provost/vice president for academic and student life.

3. A professional development (500) course as defined in CWUP 5-50-020.

a. The course/program must be taught by a member of the university faculty or a person approved by the appropriate department following the provisions of the faculty code for the appointment of faculty.

b. Students should have available the appropriate library materials, laboratories, special equipment and other facilities the course may require.

(B) The provost/vice president for academic and student life or designee has authority to approve credit courses, programs or certificates offered through the office of continuing education. New courses for credit, new degree programs and new credit bearing certificate programs need to follow established internal and external approval process.

(9) Office of Continuing Education - Noncredit Offerings

(A) As part of the continuing education of the general public, the university offers opportunities for learning which do not carry academic credit. Conferences, workshops, institutes, seminars, symposia, short courses and similar learning activities are offered to individuals for professional development, learning new skills or general information.

(B) The subject matter (content) of noncredit offerings must be consistent with the university mission and should reflect the general

nature of the institution. They must not duplicate or compete for enrollment with credit bearing courses. The office of continuing education will collaborate with appropriate colleges, departments and university staff units as needed where potential duplication or competition is identified. Non-credit courses and non-credit certificates offered through the office of continuing education may be provided in-state, out-of-state or out-of-country with approval of the provost or designee.

(C) Prior to scheduling a noncredit offering, an appropriate academic department or faculty member must be consulted for input on appropriateness of the offering, credentials of instructor (if not CWU faculty), suggestions on evaluation and other recommendations to insure overall quality.

(10) Prerequisites, co-requisites, other qualifications

(A) Prerequisites are courses or other requirements that are verifiable in PeopleSoft and required prior to enrollment in a course (such as major status, grade requirement).

(B) Co-requisite courses are those that must be taken at the same time.

(C) Other qualifications may include but are not limited to:

1. Permission of the instructor or department (using permission will override other pre/co-requisites).

2. Fingerprint clearance.

3. Specific age requirements.

(11) Equivalent courses typically carry the same credit load, but may differ in title, catalog number, and/or prefix. The following statement must be added to the course description: MKT 3XX and MKT 3xx are equivalent courses; a student may not receive credit for both. Equivalent courses do not have to be offered the same term.

(12) Professional Development Courses

(A) Professional Development courses will have the following catalog description:

DEPT 500: Professional Development (1-5). Development topics and issues for in-service and continuing education of professionals. Not applicable to degrees nor institutional requirements for endorsements or teaching certificates offered through the university. Usually graded S/U.

(B) The course may be offered for a period of five years. There is no limit on the number of times such a course may be offered during the five year period. After the five year period, the course must be resubmitted. The office of continuing education will notify the appropriate department annually of expiring professional development courses.

(13) Reserve Courses and Programs

(A) Courses are put on reserve when they are not regularly scheduled course offerings or have not been taught for three years. Reasons for placing courses on reserve could include temporary staffing changes, anticipated accreditation changes, etc.

(B) Programs are put on reserve when the curriculum becomes obsolete; student admission to the program has dropped, lack of teaching faculty/staff, or is no longer feasible to teach.

1. Programs will stay on reserve for three years before being permanently deleted.

2. A department may request that a program be taken off reserve within the first three years by submitting a program reactivate form reserve proposal. Changes to the reactivated program should be submitted using the program and/or narrative change proposal in Curriculumlog.

(14) Course Accessibility

To be in compliance with the Americans With Disabilities Act (ADA) Accommodative Policy, learning outcomes must be explicitly stated and must specify "essential elements" for ADA purposes and specific measures for assessment.

Such elements may be attendance, participation, quizzes, papers, presentations, and projects. The student learning outcomes specify a body of knowledge that the department wants taught each time a course is offered regardless of who the teacher may be. The educational processes that will be used in evaluating students, which may vary with different instructors, need to be separate from the essential elements.

(15) Workshops, Special Topics, Seminars

(A) Workshops (X91) are non-lecture courses which require students to research, develop, present, and discuss projects and ideas. No more than eight credits can be applied to a master's program. Usually graded S/U.

(B) Special Topics (X98) are courses offered on a trial basis and must meet standards applied to regular courses.

(C) Seminars (X99) are courses in which students ~~meet to report on and discuss research~~ carry the major responsibility for course preparation, research and presentation of topics..
