

Ms. Courtney Lehrman received the Foundry Education Foundation Newman Ward Award, and also attended the 2019 College Industry Conference! More at fefinc.org

**The Foundry Educational Foundation
2019 College Industry Conf.**

At the Chicago Westin Hotel on Miracle Mile

FEF is the cast metal industry's educational program at the college level. It includes four-year technology schools as well as traditional engineering colleges and graduate schools. It spans the broad range of higher education from production supervision to specialized research.

FEF scholarships are offered currently at 33 colleges and universities in North America. The majority of scholarship recipients are selected by Key Professors at FEF schools.

Dr. Johnson is our CWU FEF Key Professor who accompanied Ms. Lehrman to the CIC. At left you can see Ms. Lehrman with other students.

The 2019 College Industry Conference (CIC) was recently held at the Westin Michigan Avenue in Chicago - it brought together 119 students along with nearly 200 industry professionals. Read more about this annual industry event. And mark your calendars now for the 2020 CIC - November 19 & 20. All told, 119 students and nearly 200 industry professionals and FEF Key Professors attended this 2-day event. Twenty-nine CIC scholarships were awarded totally over \$67,000 were awarded, and the EJ Walsh Award was presented to Kathy Hayrynen. Laura Bartlett, FEF Key Professor at Missouri University of Science & Technology (Rolla) was awarded the FEF/AFS Distinguished Professor Award.
