Student-Curated Exhibit

Museum of Culture and Environment, Dean Hall, 12-1:00PM

Through the Empress's Wardrobe: Power and Style in 19th Century Russia is a museum exhibit curated by CWU Master's student Naomi Whiting (History). Near the turn of the 20th century, Russia was undergoing revolutionary cultural and social changes that threatened the status and authority of the imperial court to rule. During this historical moment, the clothing choices of the women of the Russian imperial court were deliberate—showing off wealth, status, and a deep connection to Russia's past. Visitors to this exhibit will be able to view faithful reproductions of the clothing of Empress Maria Feodorovna, who strategically used fashion to navigate Russia's complicated political dynamics.

Opening Events: May 14, Randall Hall
Exhibit to View May 14 to June 1

Artist Talk: May 14, 4-5:00PM, Randall Hall, Room 117

Reception: May 14, 5-7:00PM, Sarah Spurgeon Gallery, Randall Hall, Room 141

Matthew Potter's large-scale works on paper investigate memory through the viewpoint of abstraction. The surfaces develop a history within themselves as a result of repeated marks and densely-layered applications of media.

Charlie Tadlock's lens-based media and installation work centers on the road through the rural American West. The regional identity of rugged independence has created a culture that centers around transience, and that positions prosperity and people as temporary.
