Does a career that offers you the chance to challenge yourself, share your passion, and shape the future sound exciting? You should consider becoming a science or math teacher.

As there is a large shortage of qualified science and mathematics teachers all across the U.S., there has never been a better time to become a teacher. And there has never been a better way to become a teacher than through Central Washington University’s Noyce SMART (Science and Mathematics Alliance for the Retention of Teachers) Affiliate program, funded by the National Science Foundation (DUE: 1035514).

www.cwu.edu/~cesme
The CWU Noyce SMART Affiliate program is for freshmen, sophomores, and community college students majoring in science or mathematics interested in exploring a career teaching middle or high school.

SMART Affiliate benefits:
- Get paid to gain experience teaching or participating in scientific research.
- Discover whether teaching mathematics or science is the right career for you.
- Learn about the CWU SMART Scholars program that provides financial and professional support aimed at developing teaching content knowledge and skills.
- Preferred acceptance into the CWU SMART Scholars program.

SMART Affiliate requirements:
- Must complete an 80 hour or 160 teaching or research internship.
- Must have a minimum cumulative GPA of 3.0 or greater.

Who should apply?
- Freshmen, sophomores, and community college students majoring in science or mathematics who are interested in exploring teaching middle or high school math or science.

For more information and application materials please contact the CWU Center for Excellence in Science and Mathematics Education (CESME):
