

BIOL 377: Regional Natural History

Winter 2018 (On Campus) Meet: WED 6-8pm

Spring Break in Mexico!

Travel and conduct research at a world-class biological field station with CWU faculty

Explore volcanoes, beaches and islands of coastal Jalisco and Colima, Mexico

Experience some of the most pristine tropical deciduous forest left in the world

See rural Mexican culture (*outside* of the tourist centers)

Practice Spanish, meet Mexican researchers, and broaden your horizons!

Spring break fieldtrip course fee of \$1600 includes airfare, all meals and lodging at the research station, and transportation in Mexico.

REGISTER EARLY!
