Agenda Items:

Solutions Request:

Updated Application Load Customization (John Swiney)

Customizations need to be made to the current admissions application. Asking the question “Is your parent, or, are you a CWU employee?” Asking this question will allow the admissions office to send tuition benefit information to CWU employees and their dependents.

The group agreed to move forward on the solutions request.

Discussion/Informational Items:

Joel Klucking gave a brief synopsis of the last EISC meeting. The Pitney Bowes business case that came through BTAC last fall was negated at EISC as it’s no longer needed.

Tina Short will email ATAC minutes and a Team Dynamix snapshot to notify BTAC members of upcoming projects and current timelines.

Steve Wenger motioned to approve, John Swiney seconded.
