

Summer Internship Openings

Mid-Columbia Fisheries Enhancement Group and CWU Environmental Studies Program are seeking to fill 12 positions collecting data, monitoring restoration projects, and assisting with daily activities such as trapping nuisance beavers.

Position Description- By the end of the internship you will have experience:

- Collecting data in the field
- Live trapping and relocating nuisance beavers
- Mapping streams and habitat
- Performing stewardship at restoration sites
- Monitoring plant survivability
- Monitoring vegetation response with the exclusion of cattle
- Performing outreach to general public
- Removing recreational dams

Attend and informational meeting April 15th 3:00 in Science 201 to learn more about the summer internship.

Students can register for 5 credit (200 hr) or 10 credit (400 hr) internships during summer session. 5 credits will count toward upper division electives within your BIOL, ENST, or GEOG major.

Email Clay Arango at arangoc@cwu.edu with any questions.

To apply please send cover letter, resume, and 3 reference contacts to:
