Student writing petition. The department is asking about what the status is of this petition. Lindsey has asked to provide documentation that the student was misadvised. Dr. Drake indicated that may be hard. The committee is standing on their former decision to deny the petition.

GERT - No representation.

The committee talked about the preliminary feedback from the Qualtrics survey that GERT put out. Only four responses at this point.

The committee talked about the budget model for General Education and expressed concern about the first-year seminars.

There will be a GERT & Gen Ed combined meeting on June 5th.

The committee talked about developing examples of course proposals and review them at the June 5th meeting. Maybe put out something in an email to faculty that the examples will be available after June 5th.

Meeting was adjourned at 4:50 p.m.
