

Help Getting on NW Geography Jobs list on Google Group

(from Nancy Hultquist, Emerita Prof, Geography, CWU, and co-moderator)

This link gets you to the list: <http://groups.google.com/group/jobsnancycaitlin/>
to subscribe, please contact me at **jobsnancy@gmail.com** Include this info:

- (1) Your first and last name
- (2) Your email address (preferably Gmail or another, rather than an .edu)
- (3) Your degree & when/where expected, or when received, and where
- (4) Your discipline(s)/department (this list covers many)
- (4a) Your job description, if you have one now & (4b) how you learned of the list
- (5) Your interests-- academically and personally (none of any info shared elsewhere)
- (6) Delivery type -- (e) email for every job sent, (a) abridged version daily, or , (w) web site access only (no daily emails).
- (7) Also available is a separate *subset* email list for Outreach Announcements, notifications for government jobs before the actual listings, which eventually appear on USAjobs or are advertised by the organization sending. These sends are labeled in the subject line as: "Outreach", location, short description. These do **not** go onto the web jobs list to everyone. Please tell me if you want to be on that separate **OUTREACHES** subset. You can always try it and if you don't like it, then just asked to be removed. The outreaches carry an attachment with a description and usually a form to fill out to get into the pool of applicants. All emails; no abridged. A separate one for **GEOLOGY** jobs exists too. You must request that as well.

I prefer that you send me this information from the email address you wish to use to receive job announcements. Gmail or other domains preferred to xxx.edu accts.

Jobs sent out cover many disciplines and organizations and are located nationwide. People from all over the U.S. are members of this list, and provide announcements to share. For any other questions, just ask. And, please share any we miss seeing.

If you obtain a job from an announcement on the list, please share that! Much time and effort goes into the production & distribution of this list, and we are happy and excited to hear of employment resulting from our efforts and that it has been time well spent. We now have 641 list members. In addition, please share any jobs or internships with the list. Most of my knowledge comes from list members (previous students, employers, and many others). If you do not get a response from me, then use my other personal account, nancyb.hultquist@gmail.com, or home w/ John at nancyh@ellensburg.com . On the occasion I am unavailable on line, my friend, Caitlin LaBar, our other moderator (also my former geography student), will take over. She managed and started this list on Google Groups when I was in ICU & Rehab for 3.5 months in 2009 and 2010 for multiple heart surgeries & recovery. I started this list on Bitnet email in the 1990s!

`Please consider sharing this info with friends not on our list. Makes our job easier.
