Network Administration and Management Specialization Advising Sheet

This checklist is designed to help you organize a two year plan in the 2008-2009 Catalog. Use this form to indicate classes you have already taken and classes you plan to take within the next two years. After you are finished, print this form and bring it to your advising appointment. An active check box indicates the class is tentatively scheduled to be offered that quarter. Check with ITAM for summer offerings. Check SAFARI for any course prerequisites.
