

## Mentor News

### Mentoring Topic

It's that time! Students are (or should be) looking for post-grad employment, internships, summer jobs, relevant volunteer opportunities. Ask your mentee about their summer plans.

- Do they have an internship/job secured? Advise them on what to expect on the first day/week at a new job. Share your best practices, lessons you've learned, and the best/worst things you've seen a 'newbie' say or do.
- Is your mentee just beginning their search? Brainstorm with your mentee on where they should look for employment, and key terms they should try using.
- Start/continue to review your mentee's resume and cover letter- ask a friend or colleague to review your mentee's resume.
- How's that LinkedIn profile looking? Below is info you can pass along to your mentee.

### **What Other Mentors and Mentees Are Doing**

Several mentors and mentees said they have discussed classes, course progress, and extra-curricular activities, as well as furthering education through graduate school or earning additional certifications.

Join the **CWU Professional Network LinkedIn Group**! This is for mentees and mentors, as well as current and past students interested in sharing or receiving advice and making connections. Keep your eyes open for my invite to join the group, or add yourself, if you haven't already (must be logged in to use direct link): <https://www.linkedin.com/groups/13507300>
