

## New Horizons: The Journey to Pluto and Beyond

Credits: NASA/JHUAPL/SwRI

**CWU Physics Department Seminar**

**Saturday May 14**

**4:00 pm to 5:00 pm**

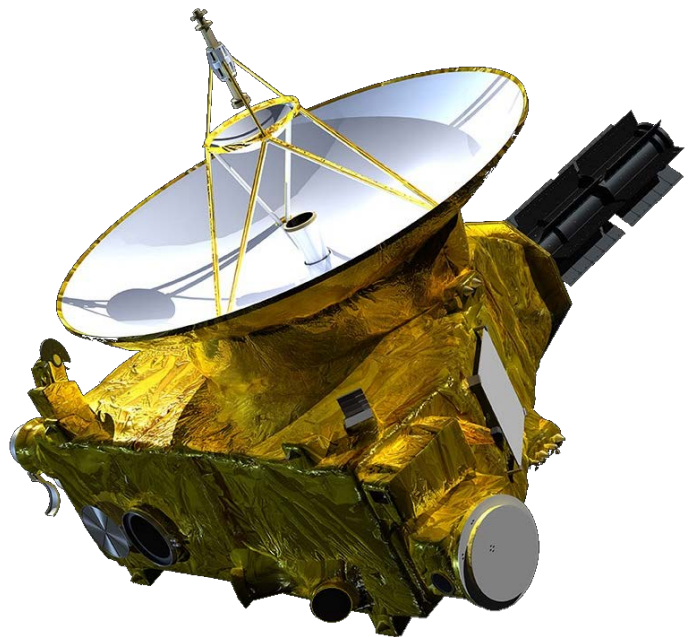

**Lind Hall 215**

**Corner of Chestnut Street and East  
University Way**

**D-13 on the Campus Map found at  
<http://www.cwu.edu/facility/campus-map>**

Dr. Marc Buie will describe the New Horizons probe, what astronomers have learned about the Pluto neighborhood, and what they hope to learn about the rest of the Kuiper Belt. He will talk about the RECON project and how CWU and EHS are participating in the study of the Kuiper Belt.

Marc Buie is a Co-Investigator on the New Horizons Mission team. He is a staff scientist in the Space Studies department at Southwest Research Institute and a personal acquaintance to Queen guitarist and astrophysicist Brian May.
