BS Business Administration - Supply Chain Management
This specialization adopts a systems orientation toward business strategy and management. Our graduates understand that the most successful companies collaborate among functions within the organization as well as between organizations in the supply chain.

BS Business Administration - Leadership and Management
This specialization provides students with a deep understanding of key concepts and theories that can be employed across various business functions. As part of this program, students have an opportunity to apply what they have learned as they lead a substantial project as part of the capstone course.

BAS – Supply Chain Management
The BAS Supply Chain Management degree focuses on the same key supply chain skills and competencies delivered in the BS/BA – Supply Chain Management specialization. This degree offers a pathway to a four year degree completion for those who have or are pursuing their Associate in Business AT degree.

BAEd Elementary Education
Students who elect this major will be endorsed to teach in elementary (K-8) classrooms with a choice of double majors in Early Childhood Education or Middle Level Math, or minors in Family Studies, Literacy, Psychology, Elementary Science or Sociology. This program is available to community college graduates with a two-year transfer associate's degree (DTA) or a bachelor’s or greater degree from an accredited college.

BS Interdisciplinary Studies - Social Sciences
This program is ideal for students whose interests overstep traditional departmental boundaries; students may choose courses from a variety of disciplines, such as psychology, sociology, anthropology and law and justice. This major is meant for those who wish to play an unusually active role in determining their course of study and planning for their career or academic future.

BA Law and Justice
This program is designed to prepare students for professional employment in the criminal justice system or entry into graduate or law school. It retains the humanistic emphasis of the liberal arts while assisting students to prepare for graduate school, careers in law enforcement, corrections, paralegal professions and the practice of law following school.

BAS/BS Information Technology and Administrative Management (ITAM)
This program is a hybrid program that provides the opportunity for students who have achieved an applied or technical associate’s degree to earn their bachelor’s degree in a timely manner. There are three specializations within the ITAM program, Administrative Management (ADMG), Information Technology (IT) and Cyber Security. The ADMG specialization provides students with any applied or technical associate’s degree the ability to earn their four-year degree. All specializations provide upper-division course work in preparation for a leadership or management position.

BS Social Services
This program is designed for students interested in working in the human services delivery system and provides the educational background and training necessary for a wide array of jobs at the national, state, and local levels. Social Services graduates work alongside social workers, counselors, law enforcement officers, doctors, therapists, and other specialists who help individuals tackle major challenges in their lives. Many social services programs provide intervention for citizens with substance abuse problems or victims of crime or violence.
