Spring 2013 STEP Lunch
With Guest Speaker, Michael Moore
“The Real Obstacles to STEM Education: More than Gender”

Mr. Moore is a 4th Year Osteopathic Medical Student at the Pacific Northwest University of Health Sciences in Yakima, WA. He comes to the medical profession after many years of service in the US Army as an Airborne Infantryman, Army Aviator, and Physician Assistant. Moore has attended Troy State University, Alderson-Broaddus College, and University of Nebraska. He was one of 5 medical students selected internationally to blog his 3rd Year medical school experiences for The Lancet, one of the world’s premier medical journals. He enjoys integrating healthy habits into his lifestyle, and modeling those for others. In his own words, “[He has] the insight, courage, and will to see and change the healthcare system in ways that others cannot. [He combines] the young physician’s clarity of vision to see and call out injustice and inequality, and the older physician’s courage and will to effect change.”

Come join us to welcome Mr. Moore to the CWU campus, and learn about his past educational and professional experiences as a STEM professional and medical student!

Thursday, April 25, 2013
11:00AM – 12:00PM
Lind Hall 215

Come enjoy lunch, a presentation from Mr. Moore, and a chance to learn about more academic & career opportunities in STEM disciplines!

Lunch and good company, as always, are free!

All STEP students, faculty, and staff are strongly encouraged to attend!

A Pre-Med Q&A Session / Presentation will be taking place at 3:00 in the Science Building (room TBD). Mr. Moore will be available to answer questions and a representative from PNWU will also be in attendance. For more information, please contact Jessica Nye at 509-963-3002 or STEP@cwu.edu
