

Central Washington University **LEARN. DO. LIVE.**

## **Associated Students of CWU Student Government**

In wake of recent events, the ASCWU Student Government board met this past Friday to discuss next steps for the students. It was at this meeting that options of resignation, recall election and simply compromising was brought forth to the team. We, then met this morning with administration to discuss the next best option and found that it is in the best interest of this institution and the students to move forward as a board in a positive direction for the betterment of all parties involved. This decision not only allows for the individuals who would like to run for office next year to have a clean and robust Election in May, but also allows the current board to allocate our resources in a manner that is most effective to all students on this campus. Henry Ford once said, "Coming together is a beginning; keeping together is progress; working together is success." We believe this speaks to our current actions as a collective team and we hope to continue to serve the students we represent for the rest of this year.
