Please signify how well you thought your first year teacher(s) was prepared in the following sixteen areas by completely filling-in the appropriate circle.

Use the following Response Key:                                    not at all                                      moderately                                   extremely
                                                                 1                             2                             3                             4                             5

1. Endorsement area subject matter knowledge.                       1                             2                             3                             4                             5
2. Application of Essential Academic Learning Requirements (EALRs) in the endorsement area. 1                             2                             3                             4                             5
3. Inquiry, critical analysis, and synthesis of endorsement area subject knowledge. 1                             2                             3                             4                             5
4. Instructional strategies for developing reading, writing, critical thinking and problem-solving skills. 1                             2                             3                             4                             5
5. Effective teaching practices including classroom management.     1                             2                             3                             4                             5
6. Effective integration of education technology specific to content. 1                             2                             3                             4                             5
7. Understanding of the social, historical, and philosophical theories of education. 1                             2                             3                             4                             5
8. Understanding of school law, educational policies, and issues associated with abuse. 1                             2                             3                             4                             5
9. Knowledge of theories of learning and human growth and development. 1                             2                             3                             4                             5
10. Reflecting upon and adjusting personal attitudes and beliefs to meet the needs of the community in which you work. 1                             2                             3                             4                             5
11. Informing, involving, and collaborating with parents and families as partners in the educational process. 1                             2                             3                             4                             5
12. Accurately assessing student learning using formal and informal strategies. 1                             2                             3                             4                             5
13. Analyzing student learning and making appropriate adjustments to instruction. 1                             2                             3                             4                             5
14. Using information about student achievement and performance to advise and involve students, parents, and community members. 1                             2                             3                             4                             5
15. Demonstrating cultural sensitivity in teaching and relationships with parents and students. 1                             2                             3                             4                             5
16. Designing or adapting instruction as needed based on the needs of your students. 1                             2                             3                             4                             5

17. Position:                                                   18. If secondary, subject matter area endorsed in:                                19. Comments:
