

Meet Kennedy (Ian) Munro, Information Technology Specialist 2 for Auxiliary Tech Services

“During my time as an intern Kennedy was always very welcoming and went out of his way to insure that I felt welcome. Now as a new employee he is still very welcoming to myself and everyone he comes into contact with.”

“Kennedy is always exhibiting the Wildcat Way in his communications either via phone or in person as he performs his duties keeping campus computers and software functioning. He has a great sense of humor and always greets people with an exuberant ‘Welcome!’”

“Mr. Munro is always welcoming and always wishes everyone to have a Wildcat Way Day.”

“Kennedy is always welcoming, every chance he gets. He keeps the work environment friendly and fun, as his fellow co-workers we have also caught on with the Wildcat Way, due to the efforts of Kennedy. Overall Kennedy lives and walks the Wildcat Way everyday of the week.”

“Kennedy is always very welcoming. He welcomes everyone he sees whether or not he knows who they are. Kennedy's actions have positively affected everyone in his department as we now also welcome anyone we see. Kennedy should receive this award as he is the most welcoming person I know and his actions have influenced my own welcoming habits.”

Thank you for exhibiting the Wildcat Way, Kennedy!
