

"The Science Honors Research program is intended to foster the career development of CWU undergraduate students who have an aptitude for research in the physical, biological, or computational science fields. "

"The Science Honors Faculty at Central Washington University is a vital component of a successful Science Honors research experience. Science Honors Faculty act as mentors, direct research, advise on thesis writing, and serve as role models. Membership on the Science Honors Faculty is a privilege granted to faculty members whose qualifications, on-going professional activity, and service to scholarly affairs qualify them to serve as mentors to the Science Honors students.
