

CENTRAL WASHINGTON UNIVERSITY

Military Science

General Departmental Information

The Military Science Department courses are designed to prepare scholars, athletes and junior leaders for commissioning in the United States Army. Students who complete the Military Science program and meet commissioning requirements will be eligible for a commission as a Second Lieutenant in the U.S. Army, Army Reserve or the Army National Guard. The on-campus instructional program is designed to fit into the regular academic schedule of the University and is taught by Army Professors and Instructors.

The academic program consists of military science, leadership labs, and off-campus summer training. Academic studies include courses in basic military tactics, principles of leadership, officership, communication, personnel and logistics management, staff management procedures, physical conditioning, land navigation, and military law. Various training activities are scheduled each quarter to further familiarize the student with the ROTC program.

Textbooks (for the MSL 100 and MSL 200 classes only) and uniform items (for all class levels) are furnished through the Department of Military Science. The MSL 100 and MSL 200 classes are open to any student to explore their military interests and are non-contractual. Advancement to MSL 300 and MSL 400 courses to complete a Minor in Military Science is by permission only.

Upon completion of the Military Science Core requirements, Leader Development and Assessment Course, and receipt of a Bachelor's degree, students seeking an Officer Commission are able to select fulltime employment (active Army) or part-time employment through the Army National Guard or the Army Reserves.
