

What is LiveText

- LiveText is a Web-based subscription that allows users to create and submit projects and assignments on-line. You may wish to visit the LiveText web site to learn more.
- It allows creation and long-term storage of electronic portfolios, projects, and documents.
- LiveText allows faculty to assess student work and give students feedback online.
- It allows the Center for Teaching and Learning to collect and aggregate data for program evaluation and improvement.

Minimum Requirements to use LiveText:

- You will need Internet access (dial-up will work, but of course high-speed is faster).
- You will need to purchase a license to use LiveText. There is no software to install for LiveText as it is a web-based application.
- LiveText recommends the following Internet browsers by operating system in order of preference:

For Windows 98 SR2, 2000, NT, Me, and XP

Use: [Firefox 1.0+](#) , [Netscape 7.2+](#) , or [Microsoft Internet Explorer 6.0+](#)

For Mac OS 10.2 and Mac OS 10.3

Use: [Firefox 1.0+](#)
