Texts: GEOLOGY
by Chernicoff & Whitney
Pearson Prentice Hall Publishers, 679 pp.

Geology of National Parks - Class Diagrams
Available *only* at The University Bookstore

Grading:

There are **250 points** possible for this course. You will have six opportunities to accumulate points. Three **TESTS** will be worth 70 points each, and three **QUIZZES** will be worth 13 or 14 points each. The test and quiz dates are fixed and announced on the back of this sheet.

A = between 250 and 225 points
B = between 224 and 200 points
C = between 199 and 175 points
D = between 174 and 150 points
F = between 149 and 000 points

The grading scale shown above lists your guarantee for a particular letter grade for the course. At the end of the quarter, if the grade distribution for the class is not appropriate, the grade boundaries will be adjusted. However, it is recommended that students not count on a curve that may not materialize!

Classroom Rules:

* In the unlikely event that you are unable to take a test/quiz on the announced date, make arrangements with me before the date. Failure to do this will result in a zero for that test or quiz.

* Please be on time to class.....with cell phones turned off.
