

Central Washington University

Chemical Hygiene Plan Awareness Certification

The Washington Industrial safety and Health Act (WISHA) requires that laboratory employees be made aware of the Chemical Hygiene Plan at their place of employment.

After reading the "CWU Chemical Hygiene Plan", please complete and return a copy of this form to EHS. By signing below, you acknowledge that you are aware of the Chemical Hygiene Plan and the policies and procedures applicable to the Laboratory Safety Standard (WAC 296-62-4001 through 4025). EHS will provide additional information and training as appropriate.

Please type or print legibly.

Central Washington University Policy Statement

It is the policy of CWU to take every reasonable precaution to provide a work environment that is free from recognized hazards for its employees in accordance to the Safe Place Standard (WAC 296-24-073) of WISHA. CWU is also required by the WISHA Laboratory Safety Standard to ensure that the necessary work practices, procedures and policies are implemented to protect laboratory employees from all potentially hazardous chemicals in use in their work area.
