

Bachelor of Applied Science Safety and Health Management

CWU-Lynnwood
A University in Your Community

Program Overview

The Safety and Health Management curriculum is recognized for preparing students to be well-rounded safety practitioners who have the confidence and capabilities to navigate the complex organizational and knowledge networks necessary to succeed in contemporary safety and health management. Position announcements and internship requests exceed the number of students in the curriculum. According to government projections, the Occupational Safety and Health profession is expected to grow nine to seventeen percent through the year 2014. Starting salaries generally range from \$30,000 to \$65,000. Salaries substantially increase with experience and certification. Positions are in many industries and career types with varied duties and experience requirements.

Application and Admissions

- 1) Completion of:
 - a) Approved degree from a community or technical college
 - b) 20 credits of the CWU “Basic Skills Requirements” or university equivalents with an overall GPA of 2.0
 - c) Prerequisites prior to program admission
 - d) Completion of 2,000 hours of recent, documented work experience relating to safety and health management, approved by the department chair or designee
- 2) Articulated academic and/or career goal in pursuing the SHM degree.
