Meet the ITAM Advisory Board 2009 - 2011

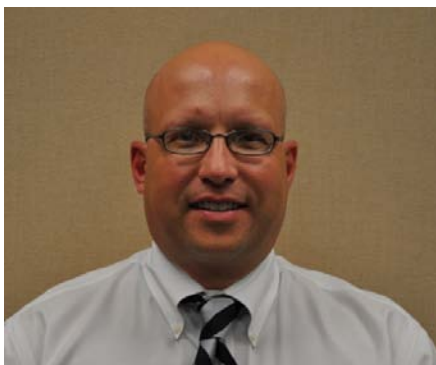

Aaron Scott
Information Systems Manager / Systems Analyst
Lamb Weston/Conagra Foods
www.lambweston.com

Originally from Cashmere, Washington and an alumni of CWU. I have been with Lamb Weston in my current position since 2006. My duties range from Systems Analysis and Design, Network Administration, Application Development, SCADA programming, Database Administration, End User Training, and just about anything else that can be done to support an IT department with end users at multiple locations. Outside of work I enjoy outdoor activities of various types. I have had previous careers in Aviation and Accounting.

Max Banakar
Mfg. Engineering, Cost Improvement, Doc. Control Manager
Leviton, Network Solutions Division
Leviton.com

Education: BS Industrial Engineering, University of Costa Rica, Master in Engineering Management, St. Martin's University, Advanced training in Lean Manufacturing System, MIT. **Teaching Experience:** Engineering Economics, CWU; Statistic, BCC; Lean Production System, University of Central America **Professional experiences:** Over 20 years experiences as an engineer in manufacturing and lean system.

Curtis L Lengfelder
IT Infrastructure Consultant
PACCAR Inc
www.paccar.com

I have been in the Information Technology field since 1991, and began my career as a "break and fix" PC hardware and peripheral technician for DPE Systems in Seattle. After seven fun years of repairing nearly every type of peripheral device ever made, I made the

jump to LAN Analyst at PACCAR in 1998 and have been there since. I am currently working in the role of Infrastructure Consultant at the Corporate Headquarters in Bellevue Washington. What I like most about the IT field and my job is that no two days are the same; every day brings new learning opportunities and different challenges. When I'm not battling IT issues, I can be found fishing, or playing golf or softball.

Katelynn Platz
Director of ERP Implementations
Parity Corporation
www.paritycorp.com

Katelynn Platz is the Director of ERP Implementation at Parity Corporation, the leading software company for Food Manufactures. She guides specialized teams through the process of initial project planning, project scheduling, business process improvement, risk management planning, project budgeting, network enhancement, lean manufacturing, training of client staff, and delivery of a final working system. As a member of Parity's executive team, Katelynn is actively involved in the advancement and design of Parity's software suite, and is dedicated to focusing on improving corporate efficiency. Katelynn is a 2005 graduate of Central Washington University, with bachelor's degrees in Psychology, Law & Justice, as well Information Technology & Administrative Management.
