GE	Perspectives on World Cultures							5	WEB
GE	Patterns and Connections in the Natural World							5	WEB

This document is meant for general planning purposes. There will be situations where a class may not be offered in the quarter anticipated on the above schedule. Please review the quarterly schedules to complete planning of your schedule. Advising is offered each quarter for BAS-ITAM students during advising week.

This program can be completed in two full years if a student goes full-time. Students do not have to go full-time in order to complete the program, but it will take longer to complete.

Some courses on this document can be substituted with equivalent course taken from the community college. Examples include: Introduction to Business, Financial Accounting, and an upper-level math course.

**Bachelor of Applied Science
Information Technology and
Administrative Management (ITAM)**
