COURSE DESCRIPTION

This course introduces students to web site development using Macromedia Dreamweaver (latest version).

PURPOSE OF COURSE

Computer literate professionals must have skills in the design, development, and evaluation of sites on the World Wide Web. This course is designed as the first step in a series which develops those skills.

COURSE OBJECTIVES

Upon successful completion of this class the student will: - create a multiple page linked website - include user created graphics on a webpage - demonstrate an understanding of Dreamweaver fundamentals - evaluate elements of contemporary website design - develop criteria for website evaluation and effectiveness

METHODS OF INSTRUCTION

Instructor lecture and demonstration, individual projects and examinations
