Republic of Congo

### Currently:

Assistant Professor, Physical Anthropology,  
Washington University - St. Louis

*"The McNair Scholars Program staff supported me in registering for challenging coursework and pursuing independent research projects as an undergraduate student. I presented this research at the McNair Scholars Symposium in California which provided the opportunity to meet other aspiring scientists from around country. They also instilled the importance of excellent mentorship which is a tradition that I plan to continue in supporting future generations of McNair scholars"*
