* Effective Summer 2007, Washington state community and technical colleges are participating in common course numbering (CCN). These courses are identified with an ampersand symbol. Check the community college previously attended for former course numbers; equivalencies to CWU are the same for both courses. Students may not receive credit for both.

* The following are common course numbers that CWU accepts in transfer; see individual equivalency sheets for differences in CCN.

* The number of credits earned for an accepted transfer course will be used even if the number of credits for the equivalent CWU course differs.
