## Beijing and Dalian, China

Post Spring Quarter - June 15 - July 9, 2010

Deadline - February 12, 2010

### Program Description

This study abroad course offers students the opportunity to learn about the international businesses and information technologies in particular in modern China. This unique study abroad course is a timely course which will acquaint students to the professional world of IT management in China with on-site visits and guided tours to several international IT high-tech companies and Asian institutions. This course will also incorporate guest speeches given by Chinese IT executives and professionals on concurrent IT topics in the field.

This course will expose students to a variety of IT business environments and culture events in modern China. This course will also allow students to meet and learn from Chinese IT executives and professionals within the context of their operational environment.
