Come Friday evening for

Constructing Meaning Through Play:

An interactive game night exploring words as the basis for rhetorical meaning. We will play with language and discuss the choices we make, benefiting our own writing and our work with other writers.

Come Saturday for

Knowledge Café: Step into the Knowledge Café and sample many kinds of research! As an appetizer, view poster/table presentations; for the main course, hear remarks from the creators; and then stick around for mini-discussions for dessert!

Workshops: Take out your writing tool belts and thinking caps to work through core issues of the conference theme: collaboration.

Lightning Talks: Listen to fast presentations by panelists; then participate in breakout sessions to brainstorm the issues raised.

Problem Posing: Enjoy interactive presentations on the conference's core inquiries: What should we be moving toward, and with whom? Where are we concentrating our light? How can we support ourselves, each other — all writers?

Fishbowl: Jump into the fishbowl, where everyone swims: Watch presenters start the conversation and then switch up the discussion panel with audience participants.

Materials Exchange: How do you promote your writing center? Bring materials — printed, electronic, or otherwise — to show off at the Materials Exchange Table.

We will gather centrifugally and centripetally – from the center out and the outside in – between mountains and dry plains, dams and wind farms, pine trees and fruit orchards, to examine the collaborative forces that push and pull us.

Get to Know...

Our Keynote Speaker:
Jon Olson

Past president of the International Writing Centers Association, Jon was awarded the IWCA's 2008 Ron Maxwell Award for Distinguished Leadership in Promoting the Collaborative Learning Practices of Peer Tutors in Writing. Since 1997, he has directed the Center for Excellence in Writing at Penn State University — the undergraduate and graduate Writing Centers, the Writing Across the Curriculum Program, and the Public Writing Initiative. Previously, at Oregon State University, he alternately coordinated the Writing Center and interim-directed the Writing-Intensive Curriculum Program. His publications include "Student-Centered Research in the Writing Center," "Tutor Training," and "Writing Intensive Curriculum Roots."
