Questions and Answers

RFP 25-004 - Plumbing and Trenchless Rehabilitation Services

Questions:

- Is this an on-call/requirements contract for campus-wide plumbing/trenchless work, or a single project?
- If single-project, please advise where to obtain plans/specs, LF quantities, and any addenda.
- " If on-call, could you confirm: Award structure (single vs. multiple vendors) -
 - Award structure (single vs. multiple vendors)
 - Contract term and any guaranteed minimums
 - Task order process (how scopes/pricing will be requested and awarded)"

Answers:

This is Campus- wide and multiple as needed projects are anticipated. We prefer to contract with a single vendor with a 5-year contract.

The scope will be decided at the time of each project based on conditions found. We are unable to forecast what is required for a per foot amount, as we are not defining size or material. This will be determined at the time of request.
