

This report provides an overview of your NSSE administration, including details about your population and sample, response rates, representativeness of your respondents, and survey customization choices (<https://go.iu.edu/NSSE-custom>). This information can be useful for assessing data quality, maintaining a record of survey choices, and planning future NSSE administrations.

## Population and Respondents

The table below reports your institution's population sizes, how many students were sampled (whether census-administered or randomly selected), and how many completed the survey.

<b>Survey sampling and completions</b>	<b>First-year</b>	<b>Senior</b>
Submitted population <small>Counts from the original population file.</small>	1,743	2,420
Adjusted population <small>Adjusted for ineligible students and undeliverables.</small>	1,743	2,420
Survey sample <small>Number of census or randomly sampled students invited to complete the survey. Targeted, experimental, and locally administered samples are not included.</small>	1,743	2,420
Total respondents	347	458
Full completions <small>Number who submitted demographic items and Topical Modules (if applicable).</small>	233	353
Partial completions <small>Number who completed part of the survey but stopped before submitting demographic items and Topical Modules (if applicable).</small>	114	105
Nonresponder Outreach Service completions <small>Number who completed a portion of the survey through the Nonresponder Outreach Service (if applicable).</small>	0	0

<b>Population file option</b>	<b>Selection</b>
Did you customize the report sample?	No
Did you include an oversample?	No
Did you update the eligibility of students in the population file?	No

## Response Rates

The table below summarizes response rates for your institution and your selected comparison groups. For more information see NSSE's Response Rate FAQ (<https://go.iu.edu/NSSE-RRFAQ>). Comparison group response rates were computed at the institution level (i.e., they do not reflect student-level aggregate results).

	<b>CWU</b>	<b>PEERS</b>	<b>Western Publics</b>	<b>ALL PUBLICS</b>
First-year	20%	24%	17%	19%
Senior	19%	22%	18%	19%

## Representativeness

The table below details variables submitted in your population file. NSSE reports use weights based on institution-reported sex and enrollment status (full- or part-time) so that results better reflect the population with respect to these categories. Institutions may also submit race/ethnicity (based on IPEDS categories) and age (year of birth) which, while not used for weights, may also help gauge the representation of these groups in your data.

Respondent and population percentages are listed side by side as a convenience to see how well the identities of your respondents reflect your first-year and senior populations. For detailed information about the identities and experiences of the respondents in your reports, refer to your *Respondent Profile*.

	<b>First-year respondents</b>	<b>First-year population</b>	<b>Senior respondents</b>	<b>Senior population</b>
	<b>(%)</b>	<b>(%)</b>	<b>(%)</b>	<b>(%)</b>
Sex				
Female	68	53	67	56
Male	32	47	33	43
Another	0	0	0	0
Full-time	94	93	88	83
Race/ethnicity				
American Indian or Alaska Native	1	1	1	0
Asian	3	4	5	5
Black or African American	3	4	5	4
Hispanic or Latino	28	23	20	22
Native Hawaiian or other Pacific Islander	1	1	1	1
White	55	57	57	56
Other	0	0	0	0
Foreign or nonresident alien	1	1	5	3
Two or more races/ethnicities	8	9	7	7
Unknown	0	1	1	1

Notes: Sex categories may not sum to 100% due to students whose sex was reported as "unknown" in the population file. For weighting ([go.iu.edu/NSSE-weights](https://go.iu.edu/NSSE-weights)), NSSE asks institutions to report students' sex in the population file, with four options: female, male, another, and unknown (or missing). The NSSE questionnaire asks students to provide their gender identities (woman, man, agender or gender neutral, demigender, etc.) in a select-all-that-apply item. Results for institutions without full (at least 90%) race/ethnicity information in the population file are not reported.

## Survey Customization

The information below documents customization options for your NSSE survey and data collection from companion surveys.

### Administration feature

Survey sample type	Census
Recruitment method	Email
Portal/LMS used	Yes
Incentive offered	Yes
Survey version	US Standard
Nonresponder Outreach Service	No

### Selection

### Additional questions and companion surveys

End-of-survey comment prompt(s)	What one change would most improve the educational experience at this institution? What one thing should not be changed?
Customized end-of-survey prompt	No
Custom item set	No
Topical Module(s)	Career & Workforce Preparation, HIP Quality
Consortium questions	None
BCSSE 2024 participation	No
FSSE 2025 participation	No

### Selection
