COVID-19 Fraud Scams

Scammers take advantage of current events, such as the COVID-19 pandemic, and find ways to scam vulnerable people. There are several recent fraud scams listed below with tips on how to avoid scams, what to look out for, and how to protect yourself and the University against scammers.

[Coronavirus Phishing Scam Targets University Students, Staff](#)

www.edscoop.com – Written by Betsy Foreman. Published 3/18/2020

Hackers are aware that students, faculty, and staff want to know about University decisions and responses to the pandemic, and they take advantage of the current events. Fake emails appearing to be from trusted sources led to email user names and passwords being stolen. The fake email tempted readers to click a link to access important information from the university’s “health team.” The link led readers to a fake Office 365 website login screen. The reader would enter their user name and password in an attempt to access the information, when in reality, they had just given the hacker their email credentials. In some instances, harmful malware was also installed on computers.

[Common Natural Disaster Fraud Schemes](#)

https://www.acfe.com/disasterfraud/ - ACFE

The Association of Certified Fraud Examiners (ACFE) has provided resources for how to avoid common frauds related to natural disasters including charity, contractor, and vendor fraud. Be sure to research any organization before donating. Searching “scam” followed by the name of the organization on a search engine may reveal scams related to the organization. Also be sure to research any companies you do business with by reviewing history of work performed in your area and read customer reviews.

Learn to Identify Phishing

Phishing Emails are a common identity theft scheme. Phishing occurs when cybercriminals create FAKE EMAILS that appear to be from trusted organizations or people and attempt to get you to; provide your confidential information; give them your username & password; download or open a malicious attachment.

[Prevent Zoombombing: Change these 4 Zoom Settings Now for Secure Video Chat](#)

www.cnet.com – Written by Rae Hodge. Published 4/8/2020

Online users can easily utilize Google to find unprotected meetings. If employees decide to utilize Zoom there are settings that should be changed immediately such as enabling the “Waiting Room” feature and disabling the “Join Before Host” options. The article also goes into detail about how to handle someone “zoombombing” a meeting that employees should be familiar with just in case.

[Coronavirus: Scammers Follow the Headlines](#)

www.consumer.ftc.gov – Written by Colleen Tressler. Published 2/10/2020

This article gives additional tips on how to protect yourself against scammers such as:

- Beware of emails claiming to be from the Centers for Disease Controls and Prevention (CDC) or experts claiming to have information about COVID-19
- Ignore offers for vaccinations
- Be alert to investment opportunities such as those that claim to prevent, detect, or cure COVID-19.

INTERNAL AUDIT HOTLINE

www.cwu.edu/internal-audit/hotline

FREQUENTLY ASKED QUESTIONS

Q: When should I make an online report to the Internal Audit Hotline?

A: Some examples of situations that you may want to report to the Hotline:

- Conflict of Interest
- Fraud/Theft
- Financial Policy Violations

Q: What happens when I make a Hotline report?

A: We review all hotline submissions and assess each one before deciding how to proceed. Once received, your report will be handled discretely and treated confidentially to the extent possible under applicable laws.

Q: Do I have to give my name when I make a report to the Hotline?

A: No, you can remain anonymous.

Q: What about retaliation for making the report?

A: University policy prohibits retaliation against employees who in good faith report apparent violations.

Q: How do I start a hotline report?

A: Report a concern using the [hotline web form](#).
