The Student Academic Senate is a body of students that fosters purpose driven academic experiences through two methods. The senate serves as a venue for students to have shared governance of the University by encouraging knowledge of academic issues and allowing students to address these issues or concerns in a constructive manor. The second way that the Academic Senate promotes academics is through experiential learning funds. These funds enable students to get the maximum gain from their experience at CWU by promoting exploration in their field of study. The Academic Senate, being able to provide financial assistance and empower students in positions of leadership, is a key component that ensures CWU is delivering knowledgeable and experienced students to the work force. The Student Academic Senate was started in 2008 with \$28,725 in supplemental funding from S&A. Started FY16 with carry forward of \$14,908.

Please provide a detailed explanation of any fund transfers from one service and activities fund budget to another.
