As Specific As Possible, Describe What You Are Doing

There is no length requirement

Since students returned to campus and our clubs have been able to travel/host events, we've had a large number of club/RSO requests for funding opportunities. We allocate these funds via a student fund council but the council is almost completely out of money for the year. Our hope is to create additional funds to match the needs to directly serve students with club travel, community development, and co-curricular experiences.

How Will This Funding Request Benefit CWU Students?

There is no length requirement

This directly benefits students in registered organizations. Each organization can request funds to support their club mission, expand their club experience, and recruit other CWU students to get involved on campus. We anticipated an additional \$30,000; however, it's dependent on the club funding requests that come throughout the year.
