## CREATING A STUDY GUIDE

### ORGANIZE CONCEPTS

- **SUMMARY SHEET**
  Divide concepts into headings and subheadings based on the organization of the class

- **CONCEPT MAP**
  Create a concept map or concept web to show relationships between concepts

- **FLASHCARDS**
  Practice questions you think will be on the test

### TEST YOURSELF

- **VOCAB WORDS**
  Make sure you understand all new vocabulary and can use the words in context

- **READINGS**
  Review your text thoroughly and make sure you pay attention to headings, sub-headings, and bolded words or phrases

- **LECTURE NOTES**
  Titles and bulleted items in slides will often give clues to importance of materials—pay special attention to anything mentioned more than once
