

Survey about the Current Status of AS-L at CWU
November 2, 2015

During Spring Quarter, 2015, the AS-L/FF, led by Dr. Ian Loverro, conducted a survey of former and current AS-L/FF in order to determine how AS-L was being continued across campus. Findings from this survey included:

- Support for AS-L needs to be given at the college and department level through financing and scheduling.
- It is recommended that members of AS-L/FF share at department meetings about the mission and goals of AS-L. This would improve visibility of the AS-L/FF. This might also unearth more sharing opportunities and in turn garner more support for AS-L.
- The responses seemed to be down the middle, but there was some information that might be helpful in setting some direction for the AS-L/FF.
- Based on the feedback, it was visible who felt supported. Some faculty felt more supported than others.
- There was a need for clarification between AS-L and CE. This was related to growing AS-L PD opportunities within courses. It was suggested that Eric Cheney be involved in helping that come to fruition.
- There needs to be follow-up regarding AS-L presentations at SOURCE.
- The validity of the data was questioned based on the number of respondents.
