

# Master of Science

Information Technology Management

## General Course Syllabus

IT 550

Advanced Data Security & Privacy

4 Credits

### Course Description

This course provides an in-depth exploration of data security and privacy principles, laws, and practices. Students will examine the interplay between technological advancements, legal frameworks, and ethical considerations in IT management at the corporate and governmental levels.

### Learner Outcomes

Students will be able to interpret complex data security and privacy challenges in various organizational contexts, analyzing the intersection of technological advancements, legal frameworks, and ethical considerations.

Students will be able to develop data governance frameworks that address both security and privacy concerns, incorporating global privacy regulations to ensure compliance.

Students will be able to evaluate privacy-by-design principles in system architecture and data management practices, focusing on emerging technologies (AI, IoT) and their implications on data privacy and security.

Students will be able to assess advanced data protection strategies that align with legal requirements, ethical standards, and business drivers, demonstrating global leadership in organizational privacy and security initiatives.

## University Policy on Academic Integrity

Academic Integrity is a standard set for this course. Students are expected to complete all of their coursework and assignments using their original words and ideas and will properly cite the words and ideas of others. Students are also expected to be honest in their interactions with the instructor. A student found to have not upheld these expectations is subject to failing this course and shall be subject to disciplinary action or sanction. [WAC 106-125-020](#) defines the term “academic dishonesty” in all its forms including cheating, plagiarism, and fabrication. This can include:

- cheating on tests;
- copying from another student’s test paper;
- using materials during a test not authorized by the person giving the test;
- collaboration with any other person during a test without authority;
- knowingly obtaining, using, buying, selling, transporting, or soliciting in whole or in part the contents of an un-administered test or information about an un-administered test;
- bribing any other person to obtain an un-administered test or information about an un-administered test; substitution for another student or permitting any other person to substitute for oneself to take a test;
- plagiarism, which shall mean the appropriation of any other person's work and the unacknowledged incorporation of that work in one's own work offered for credit;
- collusion, which shall mean the unauthorized collaboration with any other person in preparing work offered for credit

## University Policy on Special Needs

Central Washington University is committed to creating a learning environment that meets the needs of its diverse student body. If you anticipate or experience any obstacles to learning, contact Disability Services to discuss a range of available options. Student Disability Services is located in Bouillon Hall 205. Call 509.963.2214 or email [ds@cwu.edu](mailto:ds@cwu.edu) for more information.
