

Masters of Education Specialization

STEM LEADERSHIP
CENTRAL WASHINGTON UNIVERSITY

STP507 | STEM Networking Leadership Seminar

Participants will have a unique opportunity to engage directly with educators in the field. Pacific Education Institute will connect educators with local expert teachers who specialize in implementing place-based and community-focused curricula aligned with state learning standards. As part of the experience, seminar participants will conduct interviews with these educators, delving into topics such as challenges, benefits, and strategies for student engagement within place-based education. These firsthand insights will serve as a valuable resource, enriching participant understanding of effective teaching practices in community-based education.

**Learn from a
FieldSTEM Educator**
6-10 clock hour option

Get matched with a nearby place-based educator.

Meet virtually with colleagues for supportive processing on **May 4** (10a-1p, Zoom)

Enroll with CWU's Continuing Education
