Needs to receive funding for renovations to add more chimps to the program, due to the need to increase size of chimp pop. For psychological reasons. If funds are not received, then chimps would need to be moved. Julie gave a brief history of program and personal involvement. Explained research protocol. Jesse asked what CHCI wanted from ESC, a Letter of Support is what is desired. Jordan asked what are the chances of success, Julie thinks there is a lot of support for
program than initially thought. Louie thinks that CHCI should table in SURC and at Events. Devin asked where the chimps would move if not funded, that is not known at the moment, best option for chimps is to keep them on campus. Ivan asked if the new chimps brought in would suffer same effects as moving old chimps, Julie says it would be stressful but for younger chimps would not be as bad. Thomas asked about opposition, Julie says it is mostly from Administration, but that has changed with student support.
