There are certificate, rating, or stage prerequisites for many courses. To avoid delays in graduation, it is imperative that these flight prerequisites be attained in the time frame above. Students who do not complete their applicable certificate/ratings by May 15 are expected to remain at CWU to complete their course prior to leaving for the summer. Students who do not complete the certificate/rating course by June 30th will be placed on probation to be completed no later than July 30th. See your aviation academic advisor to schedule AVP 444 and AVP 489 Simulator labs during the appropriate term.
