"What I have really taken away from my meetings with my academic coach are a lot of different study habits and skills that I can experiment with. So far that is what I've been doing, and I've seen a lot of improvements grade wise."

"I would like to thank Online Tutoring for feedback regarding my final paper. It was due to the suggestions that I was able to move on and make adjustments to the assignment. The work paid off."

"My tutor helps me understand the material and have confidence to do it on my own."

"PALS is GREAT! My only suggestion for improvement is to offer more!"

"The tutors were both SUPER SUPER helpful and always giving me ideas on how to think about the problem differently so I can actually learn instead of giving me an answer. They never made me feel pressured or stupid and I can't stress enough how much I appreciate that."

"My time today in the writing center was very beneficial. I'm so grateful to have opportunities to seek help where it's needed. I had a very good experience with my tutor and she was very kind, patient, helpful, and collaborative."
