

Here's to another successful year!

Extended and Global Education had another year of success through the expertise of its dedicated faculty, staff, and students. We initiated and completed very important university-wide projects with our partners in the state, region, and around the world. I want to take a moment to congratulate and thank everyone who has been involved with these success stories. Commitment to inclusivity, diversity, equity, and social justice will continue to guide us to increase and enhance access of educational opportunities for our students across the globe.

– Ediz Kaykayoglu, Dean of Extended and Global Education

College in the High School Program Achieves National Accreditation

CWU College in the High School (CiHS) has achieved national accreditation from the National Alliance of Concurrent Enrollment Partnerships (NACEP) after a multi-year process which involved providing documentation and evidence to meet standards, a virtual site visit and peer review.
