Meeting was called to order at 3:05 p.m.

Lori Gray brought forward an email that will be going to Faculty Senate on Wednesday regarding General Education assessment. The committee has some concerns that this is going outside of the committee. In the future would like to see something the assessment and be involved in the process.

Lori moved to approve the March 5, 2018 minutes. Laurie seconded, and minutes were approved. 3 abstentions.

Chair update - Becky has a class on Friday afternoons so she won't be able to attend GEITF this quarter. There will be someone from GEITF attending the GEC meetings instead. Becky has received responses back from chairs regarding the math requirement for the Science & Technology knowledge area. The responses were across the board both for and against. Jason offered to help with language.

GEITF update – Eric reported that the timeline is moving through Senate. They have five subgroups: course mapping, advising, RCM/planning (accessing funds, deans discussion running 2 programs), PR, policies/procedures (amend or modify the program, defining role of administration of management, who owns GE, how to modify the program).

Policy/Procedure - The committee reviewed student petition policy and procedure. Maybe have a couple of people liaison with AAC and Curriculum Committee on some of the language that overlaps. The committee talked about making the prior decisions by the committee set a precedence. Any new request would need to come before the committee. The committee talked about the sentence that talked about the Provost making decisions during the summer.

The committee would like to see all of the petitions over the next couple of weeks before they move forward with the policy/procedure.

Committee talked about pathway coordinators. What should be the process? The committee decided they need to start working on the policy/procedure around how to change the framework/learner outcomes.

Meeting was adjourned at 4:56 p.m.
