## General Course Syllabus

# ITAM

### Department of Information Technology and Administrative Management

The Information Technology Management (ITAM) Department at CWU requires an internship for all students in the major program. Our goal is to provide students with the opportunity to apply classroom learning and gain first-hand experience. ITAM considers an internship to be a structured and supervised professional experience, within an approved agency, for which a student earns academic credit. It is guided by well-defined learning objectives and supervised by both academic and business personnel. This course will help students prepare for their internships. In this course students will identify a list of prospective employers, prepare resumes and cover letters, and refine interviewing skills all to help them land the ideal internship. Students will also complete parts of the Cooperative (Internship) Learning Agreement which must be finalized prior to the start of the internship. This course will be conducted online and students are expected to study the requirements for each module, accomplish all assignments by due dates, and actively participate in the online discussion boards throughout the quarter. **Prerequisites: None** **Credits: 1**

#### Students will be able to . . .

## Canvas TurnItIn

The TurnItIn feature of Canvas helps students learn to use sources and citations appropriately. TurnItIn matches the material in student papers against material on the Internet and in our database of

CWU papers. Representing the words or ideas of someone else as your own is a violation of the CWU Student Conduct Code and a serious infraction in this course. If you have questions about appropriate ways to include the words or ideas of other people in your papers, contact the instructor. Papers submitted to TurnItIn are added to the database of papers. Your instructor has the option of what papers and assignments may be submitted and/or randomly submitted to TurnItIn.
